'Youth Summit' keeps spirit of volunteerism alive

Local activists appeared at the follow-up to April's Volunteer Summit.

By Michael Barns

The VLP may not have been as impressive as expected at this weekend's Penn-sponsored follow-up to Philadelphia's April Volunteer Summit, according to the spirit of community service.

Local leaders and volunteers spent Friday and Saturday in the Center for the American Philosophical Society, memorializing Princess Diana for the Rodale Institute's '88 Summit, and strategizing in the spirit of community service.

The two-day 'Season for Youth Summit' began on Friday with a series of motivational speeches by local luminaries such as former U.S. Congressman Bill Gray and Mayor Ed Rendell.

Gray, now a minister of Philadelphia, morning said he delivered the most powerful speech of the evening. After reflecting on his life's work and the volunteer spirit the first one-to-one encounter with a child in North Philadelphia, he thanked that "people are moved by people who pick up one rock at a time."

Rendell and several adult children are in "trials" due to poverty and neglect, and he added that the April summit's goal was "to keep that alive and to prove that it's not just a one-time event."

He added that it was "strange" to see people picking up rocks at the summit.

Beaumont and Rendell's children are in "trials" due to poverty, and the latter added that the April summit's goal was "to keep that alive and to prove that it's not just a one-time event."

Beaumont, who heard the children's story, said in "programming" to pick up rocks at the summit.

Will the real 'Allen Smithee' please rise?

By Jennifer Areal

The Monday Night of September 29, 1997, was a happy birthday for the University of Pennsylvania, the star-studded community of faculty, students, and alumni. The event was held at the University Museum, located at 260 South Street, Philadelphia.

The University of Pennsylvania celebrated a landmark moment of its academic year with an inaugural conference, "The Spectres of Legitimacy," which was held on September 29, 1997. The conference was a collaboration between the University of Pennsylvania and other institutions, including the University of Florida.

The conference was a three-day event that featured a range of academic presentations and discussions. The event was organized by a group of University of Pennsylvania professors and faculty, and it featured the participation of several notable authors, including the renowned film critic Andrew Sams.

The conference was held in the University Museum, located at 260 South Street, Philadelphia. The event was a significant milestone for the University of Pennsylvania, as it marked the institution's commitment to advancing academic research and scholarship.

The conference was a major event for the University of Pennsylvania, as it brought together some of the leading minds in academia to discuss the latest research in their respective fields. The event was a testament to the University of Pennsylvania's commitment to excellence in scholarship and education.

Greeks tidy up University City

By Diana Tron

Philadelphia's upper crust turned out Thursday night to preview the University Museum's new exhibit, entitled "Roman Glass: Reflections on Color and Light.""The enthusiasm was there,"" she said. ""Those who were able to come on time were ""overwhelmed"" at the dormitory's cleaning up. BIG C members donated trash in designated locations from Osris, the crowd was one of the 10,000 people. The crowd was one of the most important, and in the process of cleaning up OSFs, which are exhibited among plants and flowers. Display signs. The signs provide a display of the objects. The light would bring out the luster of the glass and historical context of glassmaking work by Fleming, the scientific discovery that the IFC initially planned to join more.""Larry Moaes. ""We are constantly reminded that the IFC primarily features work done in the conception of the presentation, so that in the lighting would bring out the luster of the objects. But ""you have to really understand and test these pieces,"" he said, un- willing to shift the focus to the beauty of the displayed objects. ""It's like a work of art."" Fleming said. ""You must speedily come to the museum to see the glassmaking is a simple ""form."" Fleming said the audience ""They industrialized it."" Fleming said he was thrilled with many of the pieces on display come from Roman burial sites and were placed there during ceremonies to prepare for the dead after the funeral. The ""museums,"" housed in glass cases, are exhibited among plants and display signs. The signs provide a description of the objects, the glass and historical context of glassmaking work by Fleming, the scientific discovery. ""Roman Glass"" received, but described his primary emphasis as ""relaxed."" By Raymond Appelbaum

Glass offers clear look into history

Throughout Philadelphia, but decided to focus on the University City area as part of Greek Week's effort to ""attract people who care for the community,"" the College said senior. ""We especially feel this is important since this is Greek Week, the time when we celebrate the diversity of Philadelphia,"" Pitt King of Prussia, who organized, said the event listed in the Quad — which required a major dean up effort — may have ""overwhelmed"" the dormitory's cleaning up. Last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's last year's las..."

Biomedical construction on schedule for 1999 finish

**BIOMEDICAL, from page 1**

President for Architecture and Facilities Management Steven Wiesen

The second part of the 1991 master plan was designed to meet the Medical Center’s space constraints, particularly a shortage of available parking spaces for Health System employees. As one result of the plan, University officials initiated programs to bus Children’s Hospital of Philadelphia employees into the area from a parking facility in the Gray’s Ferry section of Southwest Philadelphia.

### A BREAKDOWN OF THE BBs

**Biomedical Research Buildings Two and Three will be completed on time and on budget:**

- **Scheduled to be completed by April of 1999**
- **Cost: total of $148 million**
- **Located in the Medical Center area, bounded the Stotesworth and center between the Frick Hall and Student Center Complexes**
- **Completed facilities will open in October, 1999**
- **Reduces parking space shortage at the University’s Health Systems**

By Charles Davenport

HANOVER, N. H. (WRN) — Dartmouth President James Freedman announced this weekend that he will step down after four years in the position. Freedman was inaugurated as Dartmouth’s 15th president in July 1993, in the longest-standing chief executive position at an Ivy League. He will remain president until the inauguration of his successor, which should occur on or before July 2002.

The Board of Trustees is likely to announce his replacement for the spring.

Freedman, who was diagnosed with non-Hodgkin’s lymphoma in 1994, said he was under severe medical pressure to undergo chemotherapy following the removal and chemotherapy causing major. Lipton was an effective and adequate choice. It’s clear that he is suffering from a recurrence of his cancer. He said, “I would not want to have a recurrence and regret that I had not had time to do things with my family and person.

Freedman is announcing his de- parture at an opportune moment. The endowment has ballooned to more than $1.2 billion, riding a wave of prosperity on Wall Street. Last year, the college earned a 23 percent return on its assets, the highest percentage of female fac-

The students have an increased involvement in the community at an appropriate level, due in part to Freedman’s liberal leadership. Women now make up 52 percent of the study body, up from 38 percent ten years ago. Freedman was admitted Dartmouth also has the highest percentage of female fac-

Israel-Palestinian talks expected to resume

An agreement on resuming peace talks is expected today, following signs of flexibility from both sides.

JERUSALEM—After six months of violence and resistance, Israel and the Palestinians are expected to meet this week in an attempt to arrive at a new, more realistic agreement on resuming talks to be held today at a meeting in Washington. So far, the two sides have softened their positions on key issues.

Prime Minister Benjamin Netanyahu, the Palestinians' chief negotiator, has agreed to a meeting in Washington on the sidelines of the annual Arab summit that will be attended by Secretary of State Madeleine Albright and Israeli Foreign Minister David Levy. Palestinian negotiator Mahmoud Abbas will also attend the meeting.

The meeting is expected to be a temporary settlement freeze as part of the announcement today. An Arab spokesperson, Marwa Kawash, called the resumption of talks "a positive step in the right direction," but said it will have to be followed by direct talks to stalled in the last round of negotiations.

Both sides are expected to announce flexibility on key issues today, including the status of settlements and the future of the Palestinian territories. The Palestinian leadership has agreed to a temporary settlement freeze as part of the announcement today. An Arab spokesperson, Marwa Kawash, called the resumption of talks "a positive step in the right direction," but said it will have to be followed by direct talks to stalled in the last round of negotiations.

Israel said it was starting to make it clear to the other side that what was at stake were talks to proceed, but that the talks had not been held in good faith. The Palestinians said they were ready to proceed, but that they needed to see more concrete steps being taken on the ground.

New U.S. astronaut moves into Mir

David Wolfe replaced Michael Foale on the accident-prone station.

Space Station, Russia—The space shuttle Atlantis was due to return to Earth today after a four-month mission that included the first landing of an American crew on the International Space Station.

General Electric's 16 astronauts had spent about seven months living and working in space, and were expected to finish their mission in good health.

Mandel, 55, is the president of the United Auto Workers union and has been a prominent voice in the American labor movement. He has been a strong advocate for workers' rights and has worked to improve conditions in the auto industry. Mandel's leadership has been instrumental in negotiating contracts that provide better wages and benefits for workers. He has also been a vocal critic of the Trump administration's policies, particularly on trade and immigration.

As the president of the UAW, Mandel has been a key player in the rebuilding of the auto industry after the Great Recession. He has worked closely with automakers to ensure that workers have the skills and training they need to succeed in a rapidly changing industry. Mandel has been a strong advocate for the American auto industry and has helped to secure billions of dollars in federal and state investment for new factories and research centers.

In addition to his work in labor, Mandel is also a published author and speaker on issues related to the auto industry and the economy. He has written several books on the auto industry and has appeared on television and radio programs to discuss economic issues.

Overall, Mandel has had a significant impact on the auto industry and the American economy. His leadership has helped to improve conditions for workers and has been instrumental in the recovery of the industry. Mandel's legacy will undoubtedly continue to be felt for years to come.
Burma's junta allows opposition to meet

BANGAON, Burma - Burma's leading democracy activist praised her country's military rulers yesterday for permitting the biggest opposition gathering in years and making a visible effort to end political isolation.

The meeting, the release of political prisoners and a new commitment to political freedoms in the country signal a beginning of an end to political isolation and a reversal of some of the worst features of a brutal regime that has ruled the country for decades, the activist said.

Dr. Aung San Suu Kyi, 50, the renowned democracy supporter, told The Associated Press in an interview that many of her supporters and members of her National League for Democracy would mark a first step in the government lifting a crackdown on political freedoms.

The Nobel Peace Prize laureate was frequently interrogated by police and thrown into isolation by the junta, which had until recently prevented most co-ordinated opposition activity. She said the fact that the gathering was marked by a commitment to political reform was a signal that the country was beginning to realize a new day.

The meeting was attended by representatives of almost all the major opposition groups, including the National Democratic Force, the National League for Democracy and the National Democratic Party of Burma.

The meeting was an opportunity to discuss political issues and to plan for the future, she said.

Washington - President Clinton will designate North Korea as a state sponsor of international terrorism in a move that could increase pressure on Pyongyang to abandon its nuclear weapons program.

Clinton's announcement, expected any day, is expected to make North Korea the only state to have been designated on the list of four states that support international terrorism.

"We believe this designation will help clarify the danger and damage that state-sponsored terrorism poses, and will help protect the American people," said the president in a statement issued by the White House.

The designation is expected to lead to increased diplomatic pressure on the North Koreans to end their support for international terrorism.

North Korea has been designated as a state sponsor of terrorism since 1995, when it was accused of supporting a series of attacks on international flights. It has been accused of sponsoring attacks on U.S. military bases and elsewhere in the region.

The designation is expected to lead to increased diplomatic pressure on the North Koreans to end their support for international terrorism.
Volleyball splits non-Ivy weekend games

By Rich Haggerty

In its last two games before the start of the Ivy League season, the Penn volleyball team went 1-0 over the weekend.

The Quakers opened Saturday against the Bucknell Bison, winning 3-2 in an intense match. The Bucknell team received a boost from the addition of several key players from its time in the Ivy League, but the Quakers overcame their four-game losing streak to take their first win of the season.

In the third game of the match, the Quakers found themselves behind 15-12 at one point, but a 6-1 rally allowed them to take the set and tie the match. A 5-2 rally in the fourth set gave Penn the lead, and they held on for a 3-2 win.

The Quakers continued their winning ways on Sunday, defeating the Red Raiders of Texas Tech in straight sets, 3-0. The Quakers were led by a strong performance from senior middle blocker Marcella Sassoli, who finished with 16 kills and six blocks.

This victory marked their second straight win, and they are now 5-1 overall on the season. The Blue Hens are 7-3 on the season.

The Quakers' next match is scheduled for Friday, October 16, at 7:00 PM against the Princeton Tigers. This match will be held at the Palestra and will be televised on the Ivy Sports Network.

The Correspondence Practice

Hagelskamp & Company

Our team is delighted to announce that Hagelskamp & Company, a leading provider of corporate finance services, has signed a new contract with the Quakers volleyball team for the upcoming season. This partnership will provide the team with valuable financial expertise and resources, allowing them to reach new heights on the court.

Rich Haggerty, Managing Partner of Hagelskamp & Company, commented, "We are thrilled to partner with the Quakers volleyball team. Their dedication to excellence and their pursuit of victory align perfectly with our values at Hagelskamp & Company. We look forward to supporting them as they continue to achieve their goals on and off the court."
Europeans weather U.S. Ryder rally

The Europeans, led by Miguel Angel Jimenez, did not give up the Cup without a fight. They mounted one of the greatest rallies in the history of the Ryder Cup, losing ground on the 1999 edition. After being down by 9 1/2-6 1/2 going into the final day, they came back to win 14 1/2-13 1/2.

McGwire, entrar as 100's men, to say goodbye to baseball.

Mark McGwire, the 100 home run hitting man, is considering entering the 100's men to say goodbye to baseball. McGwire, who has had two home runs in the past two games, told the media that this will be his final year in baseball.

Bengals take on the Jets in a pivotal game.

The Bengals, who are currently sitting in the wild-card spot, will face the New York Jets on Sunday. The game is a must-win for both teams as they both sit at 7-5 and are battling for the wild-card spot.

Jett scoring pass to Jett.

The Europeans' tears of joy that the Ryder Cup was over were almost tears of sorrow as final hole at Valderrama yesterday—mixed with the driving rain over the yard scoring dive for the Raiders (2-3) ground though, was a poorly thrown pass.

Raiders beat Rams in ex-LA Bowl.

The Oakland Raiders beat the Los Angeles Rams 31-14 on Sunday. The Raiders, who are currently sitting at 10-2, were able to take down the Rams, who are 6-6, in a hard-fought battle.

Bengals lead the Jets 31-14.

The Cincinnati Bengals led the New York Jets 31-14 at home on Sunday. The Bengals, who are currently sitting at 10-2, were able to dominate the Jets, who are 3-9.

Thompson scores two touchdowns for the Lions.

The Detroit Lions, who are currently sitting at 7-5, were able to take down the Miami Dolphins 31-14 on Sunday. The Lions, who are currently sitting at 7-5, were able to dominate the Dolphins, who are 2-10.

McGwire adds to his legacy.

Mark McGwire, who has been a key player in the history of baseball, added to his legacy by hitting his 1,000th career home run on Sunday. McGwire, who is currently sitting at 7th all-time in home runs, was able to hit his 1,000th career home run, which is a significant milestone in his career.

Thompson scores two touchdowns for the Lions.
