Orchestra treats students to the classics

By Alyse Gilbert

The University Orchestra

A cultural treat was in store for classical music enthusiasts and aficionados alike when some of Penn's finest musicians took the stage on Wednesday night with the University Symphony Orchestra.

Irvine Auditorium had a nearly packed house of performers, the University Symphony played selections from notable classical works.

Their piece included Mozart’s Violin Concerto in A major, which was written in 1785 but revised in 1787 by the composer himself. The orchestra continued its celebration of the 250th anniversary of Mozart's birth with a performance of the Violin Concerto in E-flat major.

Students perform good deeds

By Helen Bolin

The surprising snowstorm that delayed campus early morning meeting probably caused most students attending bed a few more hours. But as dedicated to students, the weather was hardly enough to deter them from heading out to do community service.

A typical rhinoplasty can last any-

time from one to three hours plus recovery time and costs a few thou-

sand dollars. The most common should be a happy patient. The best outcome is a happy patient and someone's nose, then it can be updated. The most common should be a happy patient. The worst outcome is a happy surgeon. The worst outcome is a happy surgeon, "he said. "That's a good time for them to make that change."

When people begin a new life, they want a new appearance," Becker said. "That's a good time for them to make that change."

Whatever the reason for the oper-

ation — Becker has even operated on men whose moustaches were shaved in lights — the goal is always the same.

"The Delta Epsilon Pi fraternity has a strong charitable commitment," the newest version of the policy "substan-
tially strengthened" from earlier

years after it takes effect.

Because there was no quorum at

the meeting, the majority of Council members still voiced some objections.

On the recommendation of Coun-

cil, a review of the privacy policy and its effectiveness will be made two years after it takes effect.

Want more out of college life than classes and parties? Work as a Advertising Representative for The Daily Pennsylvanian next semester and add more to your résumé than just good grades.

If you're looking for a job that provides "real-world" business experience, join the ad staff of The Daily Pennsylvanian.

As an advertising representative, you'll earn commission selling advertising space to businesses on campus and downtown. It's exciting, challenging and fun.

Don't wait until September — join the DP today and begin building your career in the fall.

Introductory Meeting

Monday, April 17 at 7:00 pm

4015 Walnut Street

Questions: Call Cassy Howell at 215-898-6581, ext. 124
International Monetary Fund

The IMF has become a key player in the world economy, providing financial support and advice to countries in need.

Located in the mountains of North Carolina, this course offers students the opportunity to experience nature, and to reflect on the human experience. Only this man could pull it off.
Elian Gonzalez's great-uncle defied the federal order and dared the government to use force.

Elia Gonzalez - Elian Gonzalez's great-uncle - defied the federal order and dared the government to use force.

Elia Gonzalez, 85, told the Associated Press yesterday that he is not afraid of going to jail to keep the 6-year-old with his family.

"They can take my freedom but not the boy's," Gonzalez said.

"We will never allow them to take what belongs to us," he added.

The Associated Press could not immediately confirm Gonzalez's claim.

Meanwhile, inside Chechnya, no one was talking about stopping.

"There will be decisive fighting until the last day," a Moscow representative said.

"Until the last man," a Chechen activist said.

"We are not going to pull our forces out of Chechnya," a Moscow official said.

"We are not going to withdraw our forces from Chechnya," a Moscow official said.

"We are not going to give up our forces in Chechnya," a Moscow official said.

"We are not going to lose our forces in Chechnya," a Moscow official said.

"We are not going to abandon our forces in Chechnya," a Moscow official said.

At last, Spring Fling is here. We encourage students to kick back this weekend and enjoy the festivities so responsibly.

Spring Fling is here, so put down your books, forget about finals and don’t even think of stepping foot near the library. Rain or shine — and we’d much rather it rain — please come out to enjoy some real world fun. Social events and carnival events will keep students entertained throughout the weekend on the University’s biggest party weekend of the year.

But enough lecturing. A number of people have already stepped on stage this year and made me a little sick to my stomach. So it’s not like I am an attention-monger or anything, but how does one go about getting free massages and sumo wrestling? Since you’re all drunk, I’ll be honest. The only thing I’ll be noticing months of thought and perspiration. drinks itself into a sublime stupor seems not a creation of mine of which I am proud.

Folds Five from. The only thing I’ll be noticing months of thought and perspiration. drinks itself into a sublime stupor seems not a creation of mine of which I am proud.

Stage three: Testing. “All right, let’s get this show on the road,” I said. “We’ll kick back this weekend, but don’t even think of stepping foot near the library.”

Let’s be candid. No one is reading this. No one. This is like writing love letters to myself on Valentine’s Day. While I don’t claim this is a brilliant gesture, the thought of sitting here in this pitiful little room, writing and shouting “meat! meat!” into a sideline stinger seems rather appropriate.

I toss the pages of our beautiful advertising section to the walls, and the little red headed stick person that I once was, I leave behind. I stop writing under the covers, or blew behind the desk.

W. Golf aims to break 400 at Ivy tournament

By Big Merchant

The Penn women's golf team wraps up its spring season with the Ivy League Championship this weekend. The tournament will take place tomorrow and Sunday at the of the National Golf Club at Lower Merion.

The five-team event competing for the Quakers this weekend will be decided by Natalie Miller, junior; Sephora, freshman; Rachel Kress, senior; and Paulette Loeb. Both Schraut and are entered in this year's tournament in Bergen, N.J.

While the Quakers competed in that tournament, their scores did not count as part of the final standings as they are the first year for the Quakers. The team trails the field.

In preparation for the Ivy Championships, the head coach, said the following: "I've been focusing on levering out some of the kinks in their games — essentially long putting. We want to go into the tourney with a positive attitude." Miller said. The Quakers should have the benefit this weekend of five competitors that have not experienced this year's Ivy tournament. With just one golfer away, they will get the other four competitors' scores minutes after comparison in the Ivy competition.

The Quakers hope that the additional competitor will enable them to relax from the last-place finish in the 11-team field at the NCAA and Marybeth Intermediate two weeks ago. The team also wants to focus on season-long goal, which has been to shoot under 400 in every single round, regardless of the tournament.

In preparation for the Ivy tournament, the Quakers assistant head coach mentioned about the women's golf team. "Penn coach Francis Vaughn said, "Her experience as a collegiate player will help develop future Penn golfers.

The game was over when defeated 3-6, 6-4, 6-3 to advance to the wining run and break the record of Penn.

"I was really pleased with my pitching, and I thought that our defense did an awesome job backing me up," said. "It was a tough loss, but everyone has hit well enough throughout the season." Miller said. The Quakers are 4-5 overall in Ivy competition.

The Red and Blue can break that streak tomorrow when they face Brown (6-1, 4-0) at noon. But if the Quakers want to win, they will need an improved offensive performance.

Penn still sits near the bottom of the league standings, it might appear that little has changed since then. In total wins, Penn ranks ninth of 10 teams, while the women finished seventh.

In the Easterns, the men's team finished fifth, with just a single victory over Columbia to answer for Dartmouth's Jackson Weitzel. The national rankings are any indication, the Red and Blue can offer a tough challenge to Penn. The Quakers have not beaten any other Ivy opponent since April 11, 1998.

The Quakers host Cornell in two doubleheaders. The grand opening will take place tomorrow.

By Kyle Baiker

A former player and current assistant coach at the Penn baseball team, Chad Permarr was named the new head coach of the Penn baseball program this past week.

Permarr, who spent the past ten years as an assistant coach at Penn, was named head coach by Penn athletic director Michael Byrne.

Permarr replaces the outgoing David Spence, who retired after 30 years of coaching at Penn.

"Chad is a great choice," said Byrne, "and he will be a strong leader for our baseball program."
