The **PENN** Libraries from **A** to **Z**

The Penn Libraries have been a proud and integral part of research and learning at Penn since the time of this great University's founding. Our extraordinary network of collections, information, services, and staff supports Penn's academic community and mission, and the pages that follow begin to introduce that network to you. Our goal is a library that is easy to navigate, with services and staff that are reliable and responsive to your needs. With the help of this guide and the committed and knowledgeable people who make up the Penn Libraries, we hope that you will find what you are looking for, whether you are writing a paper, developing a course, or conducting research.

Carton Rogers

Vice Provost and Director of Libraries
rogers@pobox.upenn.edu
215-898-7091

ACCESS SERVICES

Andrea Loigman, 215-898-0701
loigman@pobox.upenn.edu

Comprehensive access information is available from the library FAQ site located at <http://faq.library.upenn.edu>.

You can also type access in the search box on our entry page.

Looking for library hours, borrowing information, or your library account? Just type "hours", "borrowing", or "my account" into the search box.

ACQUISITIONS/CATALOGING
Beth Picknally Camden, 215-746-4149
bethpc@pobox.upenn.edu

Accessing Databases, E-Journals and Other Digital Resources: Licensing agreements require the libraries to restrict use of most electronic resources, including databases and e-journals, to Penn students, faculty, and staff. On-campus access is provided through the campus network. For those who connect from off-campus, use the library Proxy Service to access our licensed e-resources with your PennKey. For further information check www.library.upenn.edu/proxy.

Accessing Penn's Libraries: We invite Penn students, faculty, and staff to use all of Penn's fifteen libraries. For security reasons, you'll need your PennCard to enter the Van Pelt-Dietrich Library Center and many other libraries on campus. Visitors should consult the Courtesy Access and Borrowing Privileges section or call Van Pelt Research and Instructional Services at 215-898-7556 for information.

Accessing/Borrowing from Other Libraries: The libraries have arranged for Penn affiliates to have on-site access privileges at many major research libraries, including, in this region, Columbia, NYU, Penn State, Princeton, Rutgers, and Temple. The libraries also have reciprocal access arrangements with Bryn Mawr, Haverford, Swarthmore, and Drexel. Penn students, faculty, and staff may use these libraries by showing their current PennCard. Borrowing privileges are limited. Special arrangements:

- Penn faculty may obtain free borrowing privileges at Drexel, Bryn Mawr, Haverford, and Swarthmore.
- Penn graduate students may apply for borrowing privileges at Drexel with a letter from Van Pelt Circulation.
- The Free Library of Philadelphia offers borrowing privileges to all with a PennCard.
- BorrowDirect & E-ZBorrow: These services allow Penn faculty, students, and staff to request books directly from the circulating collections of a wide range of university libraries, including most of the Ivies. Access BorrowDirect and E-ZBorrow using the BorrowDirect+ link in Franklin, Penn's online catalog, or click the BorrowDirect+ link on the library homepage.
- For more detailed information on borrowing, see www.library.upenn.edu/borrowing, or just type "borrowing" in the search box on our entry page.

Acquisitions and Cataloging: These departments, part of the library Information Processing Center, order, receive, and catalog approximately 100,000 volumes a year for the collections. You may request rush processing of newly received titles by using the Place Request tab at the top of each Franklin screen. To suggest new acquisitions, use the online Purchase Suggestions form at www.library.upenn.edu/forms or contact one of the collection coordinators listed in the directory at the end of this guide.

African Studies: Penn's collections on Africa—approximately 66,000 volumes—are strong in the social sciences, particularly in anthropology, linguistics, history, political science, government, and demographic, social, and economic statistical information. The libraries also collect Sub-Saharan African literature in French and English, as well as texts in many local languages, primarily Swahili, Amharic, and Yoruba. All major African studies periodicals are received with extensive historic backfiles.

Bibliographic Management Tools: Computer-based systems that help users organize large numbers of references and automatically create bibliographies and/or footnotes in standard formats. One option is RefWorks, part of our e-resources collection available at www.library.upenn.edu. You can create an individual account on the RefWorks server and import into it journal article and book citations from research databases and library catalogs. You can automatically format these references in Microsoft Word documents. We also offer help for users of software packages such as EndNote and Reference Manager, which have similar capabilities. Consult reference staff at Van Pelt and the Biomedical Library for more on using these tools. See also Help Using the Libraries on page 16.

Biddle Law Library see Law and Legal Resources

Biological Sciences and Medicine. Biomedical Library | www.library.upenn.edu/biomed
Johnson Pavilion, 36th & Hamilton Walk
Philadelphia, PA 19104-6060
215-898-5817/fax: 215-573-4143

114,510 vols./3,600 current serials, holdings as of July 2007

The services and collections of the Biomedical Library support research, education, and patient care decisions for the University of Pennsylvania Health System, the Schools of Medicine and Nursing, Biomedical Graduate Studies, and the Department of Biology. Collections emphasize the most current material available. In addition to the relevant databases online, the Library provides e-journals including over 3,600 titles in nursing, biol-

BLACKBOARD MANAGEMENT

John Kiser, 215-573-5036
jkiser@pobox.upenn.edu

Amanda Chudnow, 215-746-2377
amandasc@pobox.upenn.edu

ogy, medicine, and health care; 200 e-books; and PDA-accessible content. The Library houses a 40-station computer center, conference and group study facilities, a computer training laboratory, and library-wide wireless network. Staff provide in-library and off-site training in searching medical and biological databases, bibliographic management tools, general library research skills, and evidence-based practice principles. Through the Library's Liaison-Outreach Program, staff are available to speak to classes, departments, or larger groups on library and information science topics. Staff also provide individual consultations.

Blackboard: The Blackboard learning system provides a set of web-based tools for easy distribution of course-related materials, administration of quizzes, and management of grades. Blackboard also supports communication beyond the classroom with discussion boards, email, virtual chat, announcements, and digital drop boxes. We offer services to help faculty develop Blackboard course sites, including:

- scanning and uploading of required readings (Electronic Reserves)
- linking to library-provided databases, e-journals, e-books, image collections, and specific articles
- linking to guides/pathfinders for specific course-related topics.

Interested faculty should contact their school or departmental librarian or call Research and Instructional Services at 215-898-7556 for more information.

BorrowDirect and E-ZBorrow: Services that enable Penn faculty, staff, and students to search simultaneously the catalogs of scores of academic libraries, including many Ivies, and submit requests for books not available in the Penn Libraries, including books not owned, missing, or checked out to other borrowers. To use either BorrowDirect or E-ZBorrow, click on the BorrowDirect+ button at the top of each Franklin screen or use the link provided on our entry page at www.library.upenn.edu. Choose the service you prefer and you will be kept informed about the progress of your request via email. Most books are available for pick-up within four days of request.

Borrowing from Penn's Libraries:

- Your PennCard is your borrower's card. Penn students, faculty, and staff are eligible to borrow books from all libraries in the Penn library system.
- Your patron record must be current for you to borrow materials and access library databases and e-journals. Verify that your patron record is current by selecting the Library Account link on the library homepage or My Account within Franklin. Stop by any library circulation desk to register or update your record.
- We will deliver books from one Penn library to another, including from the High Density Storage Facility, at your request. Use the Place Request button in Franklin.
- Also use the Place Request tab in Franklin to request rush processing of newly received titles and to recall items charged to other patrons.

- To borrow from the Law Library's collections, you must register in person at the Biddle [Law Library](#).
- Loan periods and circulation policies vary for individual libraries. To view these policies in detail, visit www.library.upenn.edu/borrowing.
- Use the Library Account login on our entry page to see what books you have charged, to renew them if needed, and to check the status of your recall or rush processing requests.
- Use the rapid [BorrowDirect](#) and [E-ZBorrow](#) services in lieu of recalling books that are checked out.

Business Resources. Lippincott Library of the Wharton School |

www.library.upenn.edu/lippincott

Van Pelt-Dietrich Library Center

3420 Walnut Street

Philadelphia, PA 19104-6207

215-898-5924/fax: 215-898-2261

Email: lippinco@wharton.upenn.edu

IM: Yahoo! Messenger, AIM, ICQ: LippincottLib | MSN: LippincottLib@hotmail.com

188,976 vols./3,700 current serials, holdings as of July 2007

Lippincott Library, a business research library, serves the Wharton School and the Penn community. Lippincott provides access to major business literature [databases](#) through the Library web, including ABI/Inform, Factiva, and Business Source Premier. Other key resources include online databases of corporate reports and SEC filings, plus access to international financial systems such as DataStream, SDC, and Bloomberg. Library staff offer one-hour instructional sessions on business research. Reference Librarians are available to answer business research questions in person, by email, IM, and phone. Lippincott provides a [table of contents](#) and [document delivery](#) service for Wharton faculty and PhD students.

Carrels: [Van Pelt Library](#), the Fisher [Fine Arts Library](#), and the University [Museum Library](#) provide assigned study carrels for students. In Fine Arts and the Museum Library, carrels are assigned to graduate students only; all students may request carrels in Van Pelt. Books are charged to carrels for the academic year. Inquire at the individual library circulation desk to reserve a carrel.

Catalogs: The Site Guide tab at www.library.upenn.edu lists library catalogs that contain information about a range of collections and collection formats.

Several of the catalogs listed are essential to study at Penn, including the following:

- **Franklin:** Penn's catalog, on the web at www.franklin.library.upenn.edu, lists books, journals, music scores, sound recordings, and computer files in all of Penn's libraries,

Your Penn ID is needed to access our physical locations, and a PennKey is needed to access many electronic resources. Search PennKey using the FindIt box on our web site for PennKey info.

Franklin and VCat are two of the resources you can simultaneously use using the search box on our entry page. Choose title or other search options from the drop down menu. A broader range of search options is available once you're in the native catalog interfaces.

JUDAICA/JEWISH STUDIES
Arthur Kiron, 215-573-7431
kiron@pobox.upenn.edu

A fragment of the Book of Genesis from the Cairo Genizah, held at the Center for Advanced Judaic Studies Library at Penn. Penn has partnered with Cambridge University to digitize its matching genizah fragments and provide online access to this unique body of precious resources.

except the Biddle Law Library. Biddle's catalog, LOLA, is accessible on the web at <http://lola.law.upenn.edu>. Nearly all of Penn's collections are included in Franklin, and a program is underway to create online records for the remaining older titles. In addition to these older materials, certain types of publications are not fully represented in Franklin. The following are partially excluded:

- government publications — federal, state, foreign, and international
- individual titles within microform research sets
- materials published in non-Roman alphabets and vernacular scripts
- rare and original materials (see Rare Book & Manuscript Library on page 26)

- VCat: To locate titles in the growing video collection, we recommend you use VCat. For more information on VCat and film related materials, see Film|Video Resources on page 14.
- Online Image Collection: A catalog containing thousands of digital images related to fine arts and other fields and a growing body of pictorial files from the Penn Archives. See Image Collections on page 18 for more details.
- WorldCat: An extensive online catalog of some 80 million bibliographic records representing the holdings of libraries worldwide. Access this database by typing "worldcat" in the FindIt search box on our entry page or use the link under the Site Guide tab. Penn faculty, students, and staff can initiate Interlibrary Loan requests from within WorldCat.

Center for Advanced Judaic Studies Library | www.library.upenn.edu/cajs
420 Walnut Street
Philadelphia, PA 19106-3703
215-238-1290/fax: 215-238-1540

208,368 vols./400 current serials, holdings as of July 2007/check CAJS Catalog & Franklin The Library supports both advanced research and a publications program in Judaica /Jewish Studies. CAJS holdings are strong in Biblical and rabbinic literature, Jewish history and thought up to the modern period, and Judaica Americana. CAJS also holds more than 8,000 rare and unique items, including Hebrew incunabula, early printed works, medieval codices, papyri, scrolls, archival collections, and over 500 genizah fragments.

Center for Research Libraries [CRL]: CRL acquires rarely-held and costly primary research materials and lends these items for extended periods to its member libraries at readers' request. The CRL collection consists of more than four million items, including current subscriptions to foreign-language science and technology periodicals, current U.S. and foreign newspapers along with backfiles preserved on microfilm, microform and reprint sets, and microfilmed archival materials. CRL also holds U.S. federal and state and foreign government documents, foreign doctoral dissertations, and materials acquired or preserved through area studies programs. Penn readers should request CRL materials from one of our Interlibrary Loan offices. We will begin integrating CRL collection finding tools into the Penn

library web site in the near future. To link to the CRL online catalog, just enter “crl” in the search box on our entry page.

Chat and IM Services: The libraries offer a live chat service that allows you to ask questions and receive answers online and in real time. During the academic year, the service is available weekdays 9 am-6 pm and Sunday-Thursday evenings 9-11 pm. Go to <http://refchat.library.upenn.edu> for instant [help using the libraries](#) with either Chat or IM.

Chemistry Library | www.library.upenn.edu/scitech

3301 Spruce Street
Philadelphia, PA 19104-6323
215-898-2177/fax: 215-898-0741

39,017 vols./380 current serials, holdings as of July 2007

The Chemistry Library collects primarily in the four areas of major faculty research: biological chemistry, inorganic chemistry, organic chemistry, and physical chemistry. The collection maintains 160 journal subscriptions and has full runs of most of the English-language core journals in chemistry. The monographs provide a good working collection with strengths in organic synthesis and natural product chemistry. Among its electronic services, the Library provides networked access to Chemical Abstracts, Gmelin, ScienceDirect, the Beilstein database of chemical compounds, Scopus, and Science Citation Index.

Circulation Services see Borrowing from Penn’s Libraries

City and Regional Planning see Fine Arts

Collections of Penn’s 15 Libraries: Penn’s libraries—counted among the oldest academic library collections in the nation—support the University’s teaching, research, and clinical programs by providing scholarly resources in all formats and media. A network of subject specialists, who serve as liaisons to Penn’s departments and schools, are responsible for selecting library resources.

Collectively, Penn’s libraries hold nearly six million printed volumes and more than four million microform items. We subscribe to more than 40,000 online and print journals and offer access to over 700 [databases](#) and other digitized resources.

On campus, the Van Pelt-Dietrich Library Center, along with school and departmental libraries, house the majority of the collections. Significant concentrations of material are also located off-campus at the [Center for Advanced Judaic Studies](#), the Jean Austin duPont [Veterinary Medicine](#) Library, and the [High Density Storage Facility](#). More collection details are available under the listings for the various libraries and major subjects.

Browsing in the stacks remains a useful and important way of finding information. However, with so much material physically dispersed and with even more material now available electronically, students and faculty need to be adept at using the libraries' search engine and online catalog to discover resources across the entire network of Penn libraries.

As interlibrary borrowing systems become increasingly efficient, library collections grow ever more interdependent, and Penn is fortunate to participate in a number of resource-sharing alliances, including BorrowDirect and E-ZBorrow. Penn is also a member of the Center for Research Libraries, a vast global resource for material that may be borrowed for extended periods. These programs greatly enhance information offerings to the Penn community.

We invite faculty, students and staff to recommend resources for purchase. Please contact the Director of Collection Development and Management or the subject specialists listed in this guide, or use the Purchase Suggestions form found on www.library.upenn.edu under Ask Us/Get Help.

Communication. Annenberg School for Communication Library |

www.library.upenn.edu/annenberg
3620 Walnut Street
Philadelphia, PA 19104-6220
215-898-7027/fax: 215-898-5388

9,566 reference|reserve / 305 current serials / 500+ video holdings as of July 2007
Communication resources at the Penn Libraries support the research and teaching of the Annenberg School in the following categories: political communication, health communication, media studies, media institutions, international communication, new media, children/family and media, visual communication, journalism, and non-verbal communication. The Annenberg Library houses journal, reference, and course reserve collections in the field, and a video/DVD collection. The bulk of the monograph collection for Communication resides at the Van Pelt-Dietrich Library Center. The Annenberg School Library serves as a gateway to the vast network of resources at other libraries on campus and beyond, as well as a destination for students to avail themselves of the Library's print and e-resource collections in a beautifully renovated space overlooking Walnut Street.

Computer Labs in the Libraries: The libraries provide more than 500 computers in labs and other facilities in various locations. Three to note are:

Biomedical Library: (215-898-9219) PCs and Macs with email and Internet capabilities, MSWord, Excel, and Powerpoint.

Additional computers and software are available in the Lippincott Library (the Class of 1956 Computer Resources Center and the Snyder Business Reference Center) and in Van Pelt (the Moelis Electronic Research Center, the Undergraduate Study Center, and selected points around Van Pelt-Dietrich). In the Weigle Information Commons in Van Pelt-Dietrich, you'll find laptops, plasma displays, and wireless connections. The Commons is also home to the Vitale Digital Media Lab which offers a wide range of multimedia software and media output devices.

SCHOLARLY COMMUNICATION

For more information about scholarly communication issues and related services, contact **Shawn Martin**, 215-573-4207, shawnmar@pobox.upenn.edu

Van Pelt-Dietrich Library Center: [Rosengarten Lab](#) (215-573-2846), ground floor, open 24 hours, Sunday-Thursday, fall & spring semesters; [Van Pelt Class of 1937 Computer Lab](#), 5th floor, west.

Chemistry Library: [Teaching Lab & Computer Resource Room](#) (215-898-7122) 8 PCs with Chem-Draw, SciFinder Scholar, Beilstein, and other software supporting chemistry research, plus MS Office.

Copy Cards see Photocopying

Copyright see Scholarly Communication

Courseware see Blackboard

Courtesy Access and Borrowing Privileges: Adult researchers who need to use Penn's [collections](#) are invited to use the libraries on weekdays. [Visitors](#) will be asked to provide a valid photo ID. We recommend calling ahead to discuss your research needs and to verify access policies and library [hours](#). Persons who wish to borrow from the libraries' collections may purchase a Courtesy Card, which permits borrowing from all libraries except Biddle Law. The card does not permit [database](#) or [e-journal](#) access or interlibrary loan service. Card holders may also use the [Van Pelt-Dietrich Library Center](#) and the Fisher [Fine Arts Library](#) on weekends and holidays. The libraries welcome alumni, non-Penn researchers, and corporations to apply. For information call 215-898-7566.

Databases and Article Indexes: The Penn libraries provide more than 400 networked databases and indexes for use by faculty, staff, and current students. These resources vary in purpose and content. Some provide the fulltext of news sources (Factiva and LEXIS/NEXIS Academic). Others index and abstract scholarly and professional journal literature (MEDLINE, MathSciNet). Some article indexes, like EBSCO MegaFILE, provide indexing, abstracting, and selected fulltext. The libraries offer databases with [quantitative](#) information, such as the ICPSR database and iPOLL, and a growing variety of databases containing digitized photos, art works, and images with searchable texts; prominent examples include the AP Photo Archive and the Accessible Archives of 18th and 19th century [newspapers](#). Penn library users can print, save to a portable drive, or [email](#) the results of their database searches.

When searching databases and indexes take advantage of the PennText service. PennText provides a direct link from a database citation to a variety of related services. These include a link to article fulltext if available, or to an abstract or table of contents of a cited journal issue. PennText can also link to a Franklin catalog record for the print version of a journal, and pro-

vide a dynamic Interlibrary Loan request form, useful when we do not own the journal you need. Look for the PennText button in many of the library databases and indexes and click to use this convenient service.

Dental School Library | www.library.upenn.edu/dental

240 South 40th Street
Philadelphia, PA 19104-6041
215-898-8969/fax: 215-898-7985

59,602 vols./770 current serials, holdings as of July 2007

The Library's collection covers all aspects of dental medicine and the related basic sciences. Areas of emphasis include oral biology, oral medicine, oral implantology, periodontics, endodontics, orthodontics, pediatric dentistry, and oral and maxillofacial surgery. In addition, the collection emphasizes bone and mineral research, cellular biochemistry, tissue reactions, temporomandibular joint treatment, and AIDS research. The historical collection is especially strong, covering the history of dentistry in the U.S. and western Europe. The Library offers access to a wide range of relevant biomedical databases, and to a constantly expanding collection of fulltext electronic books and journals.

Digital Library: The Digital Library is a test bed for the development of digitized text and image collections, finding aids, and preservation strategies and new web services. Current research and development initiatives include the Schoenberg Center for Electronic Text and Image (SCETI), the Online Books Page, the PennTags social bookmarking initiative, our federated search tool, our video catalog, VCat, and the library Data Farm. The goal of Penn's Digital Library is to integrate digital content, print and other nondigital resources, and cultivate the expertise of librarians for the improvement of teaching and learning.

Vitale Digital Media Lab see Weigle Information Commons

Disabilities, Services for Patrons with Disabilities: The libraries are committed to providing equal access to information for all members of the Penn community. The Van Pelt-Dietrich Library Center and all the school and departmental libraries offer barrier-free access. See the library web at <http://www.library.upenn.edu/facilities/ada> for details. The Assistive Technologies Room, located in the Goldstein Undergraduate Study Center on the ground floor of the Van Pelt-Dietrich Library Center, provides workstations and software for persons with limited vision or motor function.

Dissertations: The libraries house copies of all extant Penn doctoral level dissertations and many masters theses. Dissertations are listed in Franklin and in Digital Dissertations,

a networked database that indexes U.S. dissertations from 1861 forward and provides online access to abstracts of all U.S. dissertations from 1980 on, and to the fulltext of Penn dissertations accepted since 1997. A large number of Penn dissertations can be accessed online through ScholarlyCommons@Penn.

Document Delivery/Interlibrary Loan: Interlibrary Loan is a service through which materials not owned by Penn may be requested from other libraries. All currently affiliated University faculty, staff, and students may use this service, which is administered by five Interlibrary Loan offices, each serving its own constituencies. Your affiliation determines your service unit. Penn's membership in various associations, regional consortia, the Mid-Atlantic Law Library Cooperative, and the National Library of Medicine's DOCLINE program provides rich resources for expedited borrowing of books and delivery of journal articles. You can initiate an Interlibrary Loan request online by using the web request form, or by using the request features built into OCLC WorldCat (see Catalogs). [BorrowDirect](#) and [E-ZBorrow](#) provide an avenue for quickly obtaining books that are owned by other Ivy institutions and research libraries in Pennsylvania. Use WebDoc@PennLibrary to receive online articles you request from other institutions and from the [High Density Storage Facility](#). Details on the WebDoc service are on the library web at <http://webdoc.library.upenn.edu/webdoc>. For more information about ILL and document delivery services see the web page at <http://webdoc.library.upenn.edu/ill>.

East Asian Studies <http://www.library.upenn.edu/collections/china> | <http://www.library.upenn.edu/collections/japan>: A large percentage of the East Asian collections consists of works of pre-modern Chinese and Japanese literature and East Asian religion and philosophy. The collections contain lesser concentrations of East Asian history, pre-modern art and architecture, East Asian languages and linguistics, and traditional medicine. Currently Penn is increasing its holdings in modern Chinese and Japanese literature and East Asian women's studies, and beginning to collect in Korean Studies. While the East Asian Collection on the fifth floor of the Van Pelt-Dietrich Library Center houses books and bound journals in the vernacular languages of East Asia, the Derk Bodde East Asian Seminar Room collects core reference works and a small number of unbound core academic journals. The University [Museum Library](#) and the Fisher [Fine Arts Library](#) also have extensive East Asian holdings.

E-books: Nearly 300,000 fulltext books are available through the library web. A few prominent examples are listed below. Others can be found by searching for e-books using the FindIt box at www.library.upenn.edu.

- Medical reference collections include: AccessMedicine, Books@Ovid and MD Consult.
- American Council of Learned Societies History E-book Project.
- Early English Books Online | Evans Digital Collection | Eighteenth Century Collections

Online: resources that together comprise nearly all English publications from 1475 to 1800.

■ **Online Books Page.** Links to fulltext versions of over 25,000 books that are in the public domain and reside on the Internet. The range of subjects is broad. Go to www.onlinebooks.library.upenn.edu.

■ **Safari Tech Books Online, Knovel Engineering and Scientific Online Reference Books, and Wiley encyclopedias and reference works.** Together these sources offer more than 700 e-books, including major reference works such as Perry's Chemical Engineers' Handbook and nearly all the programming manuals published by O'Reilly and Associates.

Education Resources: Van Pelt Library houses the majority of the collections in education and related fields in the social sciences. Educational theory and practice, urban education, educational leadership and management, and educational psychology, are among the stronger areas of the collection. Areas of growth include higher education, the teaching of science and mathematics, and English as a Second Language. Penn offers online access to the full range of databases in education and related fields, as well as a strong collection of online journals. In addition to the publicly accessible ERIC documents, Penn holds the ERIC microfiche collection from 1966 to 2004.

E-journals: The library web links to nearly 14,000 electronic journals. Some of these are freely available on the Internet, but the majority are provided through library subscriptions and include titles from JSTOR, ScienceDirect, Project Muse, and other major academic publishers and societies world wide. If you have a journal citation in hand, you can use the PennText Article Finder to access a copy of the article in library electronic and print collections or to obtain a copy through Interlibrary Loan if we do not own the journal. Visit this service on the library homepage.

Engineering, Towne Library | www.library.upenn.edu/scitech
217 Towne Building, 220 S. 33rd Street
Philadelphia, PA 19104-6315
215-898-7266/fax: 215-573-2011

44,285 vols./1,100 current serials, holdings as of July 2007

The Engineering Library collections cover bioengineering, biomolecular, chemical, electrical, mechanical and systems engineering, applied mechanics, materials science and engineering, and computer and information science. The Library also houses Engineering School theses and dissertations from the past five years, and has a small collection of videotapes and a study collection of textbooks supporting undergraduate course work. For faculty of the School, the Library offers a journal table of contents and document delivery service. Web access to the major engineering and science databases, includ-

Eighteenth Century Collections Online and our other online English Literature collections, including the libraries' own Schoenberg Center for Electronic Text and Image, provide you with a vast online library of primary resources in the humanities.

FIND IT

ing Compendex, Science Citation Index, Scopus, and INSPEC, is available to the Penn community. Thousands of e-journals and e-books of interest to engineering and applied science researchers are accessible using the E-Resources Locator at www.library.upenn.edu/scitech.

Faculty Use of the Libraries: Penn faculty have a variety of privileges including:

- special loan periods in Van Pelt and several other libraries.
- access to locked studies in the Van Pelt-Dietrich Library Center. Contact Andrea Loigman.
- use of up to five proxy borrowers, including spouses and partners, to check out books.
- ability to create reserve books lists or request individual titles for reserve using the Place Request tab in Franklin. The libraries scan readings for reserve or for linking to a Blackboard course site.
- FacultyEXPRESS, for standing faculty—books and articles delivered to the office or desktop.
- SelectedWorks, a tool that allows faculty to create personal research pages, at http://repository.upenn.edu/sw_gallery.html. For other services for faculty to promote their work, see the entry for Scholarly Communication.

Library Film Center: Supporting the study of cinema in the School of Arts and Sciences, the Film Center consists of a large group viewing facility that seats up to thirty, and six smaller group study rooms equipped with multimedia viewing and listening equipment. The large viewing facility is outfitted with a projection system, DLP projector, tri-standard VCR, DVD/laser disc players, and computing capabilities. This room is available for class bookings and can be reserved through the library administrative office; call 215-898-1463 for booking information. The small group viewing and listening rooms are part of the Music Library's Eugene Ormandy Music and Media Center and contain DVD/laser disc players—including multi-region DVD players—as well as a variety of audio and computing capabilities.

Film | Video Resources: The growing multimedia and film collections in videocassette, laser disc, and DVD format are fully cataloged in Franklin, Penn's online catalog, and are also searchable using VCat. VCat also provides film highlights and lists of new titles. The range of titles is broad, with a major collection of South Asian films. Viewing stations are available in the Ormandy Music and Media Center, the Goldstein Undergraduate Study Center, and the Library Film Center in Van Pelt-Dietrich. Most titles can be borrowed for home viewing.

FindIt: A tool on the library web site that simultaneously searches for e-journals, databases, books, videos, and information about the libraries, including their staff, when you enter keywords or phrases. You can also browse through the links on various search tabs. FindIt is a great way to begin a search.

FINE ARTS
Bill Keller, 215-898-8325
wkeller@pobox.upenn.edu

Computer resources in the Fine Arts Library include workstations with desktop publishing software and optical scanners.

Aerial photography and a vast collection of cartographic images are available as part of our GIS resources. See the articles in this guide on Map Collections and Quantitative Information Resources for additional information.

Fine Arts. Fisher Fine Arts Library | www.library.upenn.edu/finearts
220 S. 34th Street
Philadelphia, PA 19104-6308
215-898-8325/fax: 215-573-2066/Fine Arts Image Collection 215-898-7086

190,000 vols./980 current serials/500,000 slides/1,000,000 created or licensed digital images, holdings as of July 2007
The collections of the Fisher Fine Arts Library cover architecture, city planning, historic preservation, history of art, landscape architecture, the studio arts, and urban design. Collections are increasingly global in nature and include materials on the arts of Islam, South Asia, and East Asia, which supplement collections in the Van Pelt and Museum Libraries. The Library also houses the Perkins Architectural Collection, a special collection of some 3,000 rare works in the history of architectural book publishing. Members of the Penn community have web access to databases and e-journals supporting each subject area. Print collections are complemented by a circulating collection of DVDs and videotapes.

The Library maintains a large and growing collection of digitized fine arts images. These visual resources provide coverage of world art and architecture from prehistory to the modern age and are available to faculty, graduate students, and undergraduates for on-campus classroom use. For more information about the image collections, digital scanning, and other services, check the web at <http://www.library.upenn.edu/collections/finearts/slide/>.

Franklin, Penn's Online Catalog see Catalogs

Furness Shakespeare Library see Rare Book & Manuscript Library

Geographic Information Systems: GIS software combines layers of numeric data and geospatial data to produce maps. The mapping products of GIS provide a visual method of presenting relatively complex relationships, patterns, and trends. The libraries have a site license for ArcView, a popular piece of GIS software, with copies installed in library computer labs. Penn is a member of UCGIS, the University Consortium for Geographic Information Science. Library GIS datasets are described in Franklin, Penn's online catalog. See the GIS web page at <http://www.library.upenn.edu/datasets> for additional information.

Government Publications: Penn is an official selective depository for documents of the United States, Pennsylvania, the United Nations, and the European Union. The libraries also purchase official publications from U.S. cities, several foreign governments, and intergovernmental organizations. Documents are received in print, microtext, and elec-

tronic formats; many are web accessible, including comprehensive collections from the U.N., OECD, IMF and World Bank. Not all documents are represented in Franklin, Penn's online catalog, or in the card [catalogs](#); we encourage you to consult a librarian when you need to locate official publications.

Health Sciences see Biological Sciences and Medicine, Dental, and Veterinary

Help Using the Libraries: Penn's librarians will help you find materials in the [collections](#), check facts, get started on a research paper, navigate the Internet, track down citations, or choose the most relevant electronic database. In the smaller departmental and school libraries, librarians are available weekdays only. Librarians staff the larger libraries (Biddle Law, [Biomedical](#), Lippincott, and [Van Pelt](#)), on evenings and weekends. Help is available by phone, by [email](#), by online [Chat and IM Services](#), and in person. You are also invited to make an appointment with a librarian to discuss your research needs. Faculty are especially encouraged to discuss how the libraries might help their students. For more information, see the options under the Ask Us/Get Help link at www.library.upenn.edu or call 215-898-7556.

High Density Storage Facility

Suite #10, 3001 Market Street
Philadelphia, PA 19104
215-573-5662

1,200,179 vols., holdings as of July 2007

The High Density Storage Facility is designed to manage, preserve, and make accessible low-use titles gathered from the on-campus libraries. Penn's online catalog, Franklin, provides bibliographic access to holdings in Storage. Materials can be retrieved by using the Place Request tab in Franklin or the Forms link on the library web at <http://www.library.upenn.edu/forms>. Users may request original items and photocopies of journal articles and portions of books. Physical items are delivered every weekday to the library of your choice and twice each weekday to the Van Pelt-Dietrich Library Center. To consult large quantities of material or the [Map Collection](#) in the Facility's reading room, call 215-573-5662. On-site access is limited to weekdays, by arrangement.

Hours: Library hours vary according to the academic calendar, with extensions in the [Van Pelt Library](#) during exam periods. The hours page on the library web displays the current and future hours. For hours information, call 215-898-7556.

Humanities Collections: The library humanities [collections](#)—housed in the [Van Pelt Library](#), the Fisher [Fine Arts](#) Library, the [Music](#) Library, and the [Museum Library](#)—include

texts, images, and sound recordings in all formats. Most of this material is organized by subject according to the Library of Congress and Dewey classification systems and is available in the open stacks for browsing, though increasing numbers of books are shelved in the High Density Storage Facility at 3001 Market Streets.

In addition to the area studies collections, Van Pelt Library has strong humanities collections in fields as diverse as American, English, and European literatures, American and western European history, classical studies, philosophy, and the historical and textual study of religion. The Annenberg Rare Book & Manuscript Library makes available the manuscript, archival, rare, and pre-nineteenth century materials that support humanistic scholarship. A wide range of historical works and documents are stored in microform. However, the library web site at www.library.upenn.edu is increasingly the gateway to large collections of humanities texts and images, such as the three online collections that comprise all of English language publication from 1475 to 1800 and the American Periodical Series Online, a collection of more than 1,100 historical journals and magazines.

IM Service see Chat and IM Services

Image Collections: The libraries provide physical and web access to high-quality images from several collections. The Fisher Fine Arts Library is a key part of the Online Image Collection with 1,000,000 created or licensed digital images. Fisher also has a collection of 500,000 art and architecture slides. You can search and view the individual components of the Online Image Collection at <http://imagesvr.library.upenn.edu/i/image/all>. The Schoenberg Center for Electronic Text and Image (SCETI) publishes thousands of web-accessible facsimiles of Penn's rare books, unique materials, and photographs. Visit SCETI at <http://dewey.library.upenn.edu/sceti>.

Information Commons see Weigle Information Commons

Instructional Services and Research Skills: A major goal underlying Penn's development of information resources and technologies is to build and support the information competence of students and faculty. To this end, the libraries offer a variety of instructional services that range from one-on-one consultations to group training sessions. At the request of faculty, librarians provide course-related instruction sessions, help design research assignments, assist faculty and students with Blackboard and other forms of courseware, and guide students in evaluating Internet resources. Using Chat and IM services, the libraries make reference help available where students live and work. The Biomedical, Lippincott (business resources), Science and Engineering Libraries, and Van Pelt also offer sessions that focus on specific topics, for example, finance, specific databases (MEDLINE), or specific skills (effective Internet searching). We also encourage stu-

Interlibrary Loan see Document Delivery/Interlibrary Loan, and BorrowDirect and E-ZBorrow

Judaica/Jewish Studies | <http://www.library.upenn.edu/collections/judaica>: Penn's Judaica collections comprise one of the world's largest and richest resources on the history and culture of Jews from Biblical times to contemporary America. Located in Van Pelt Library, in the Center for Advanced Judaic Studies (CAJS) Library, and in the Museum and Biddle Law Libraries, these collections total about 350,000 volumes, in 24 languages and in a range of formats from manuscripts to electronic resources. Collection strengths include Biblical literature, history of Biblical interpretation, Jewish history, and modern Hebrew and Yiddish literature. While the majority of rare materials are held at CAJS, a number of important early Hebrew printed works and a significant collection of Holocaust Memorial (Yizkor) books are housed in the Rare Book & Manuscript Library in Van Pelt-Dietrich.

Laptop Computer Loan: Laptop computers can be checked out for in-library use at the Annenberg (communication), Biomedical, Engineering, and Fine Arts Libraries, and at the Rosengarten Reserve desk in the Van Pelt-Dietrich Library Center.

Laptop Computer Networking: If your laptop has a wireless card, you can reach the Internet via wireless connections available throughout Van Pelt-Dietrich, and in the Biomedical, Fine Arts, Museum, and Engineering Libraries. Network cables are available at Van Pelt's and Biomedical's circulation desks. Many floors in Van Pelt-Dietrich also provide plug-in connections to the Internet in case your laptop has no wireless card. For more information, check out <http://www.library.upenn.edu/computing/computing.html>.

Late Night Study: The Goldstein Undergraduate Study Center on the ground floor of the Van Pelt-Dietrich Library Center is open 24 hours Sundays through Thursdays, until midnight Fridays, and until 2 a.m. Saturdays during the fall and spring semesters. Next to the Goldstein Center you'll find Mark's Café.

Latin American Studies | <http://www.library.upenn.edu/collections/latinamerica>: Penn's Latin American collections are strong in history, literature, and materials relating to indigenous peoples and languages. Extraordinary special collections, such as the Berendt Linguistic and Brinton collections, which contain grammars and lexicons of Native American languag-

215-898-0701

es, and the Lea Library, with its materials on the Inquisition and the late medieval and early modern Catholic Church, supplement the general collections. Current emphasis is given to ethnography and archaeology, colonial history, ethnohistory, and literature. Though the largest number of Latin American related titles are held in Van Pelt Library, the Museum Library excels in Mesoamerican archaeology, languages, and codices. The Sydney Keil Collection of Latin Americana, in the Annenberg Rare Book & Manuscript Library, complements the current research emphasis on colonial history, especially Mexican.

Law and Legal Resources. Biddle Law Library | www.law.upenn.edu/library
3460 Chestnut Street (Entrance: 3443 Sansom Street)
Philadelphia, PA 19104-3406
215-898-7853/fax: 215-898-6619

601,030 vols./12,529 print and electronic serials, holdings as of July 2007
The Biddle Law Library's collections and services, located on four floors of the Law School's Nicole E. Tanenbaum Hall, support Law School programs in American, foreign, and international law. Biddle's holdings include books, journals, reported judicial opinions, statutes, digests, citators, and government documents. LOLA, Biddle's online catalog at <http://lola.law.upenn.edu>, can be used to search for most titles in the Library's collection. Information about some older state materials can be found in the card catalog. The online catalog and the Library's website provide access to electronic databases and resources, journal indexes, full text of journal articles and a wealth of other information. Titles in Biddle are not included in Franklin, although Franklin offers a convenient link to LOLA. During the regular academic year, all Penn students, faculty, and staff must show a valid PennCard to the guard at the entrance of the Law School.

Map Collections: In addition to Van Pelt Library's collection of atlases and other bound volumes of maps, over 120,000 flat maps are housed in the High Density Storage Facility, where they can be consulted on site. The collection core consists of the 7.5 and 15 minute series of U.S. Geological Survey topographic maps. This is an historical collection: all versions of individual quadrangle maps are retained. In addition, users can consult early USGS folios, other USGS series, geological maps, aeronautical and oceanographic charts, Defense Mapping Agency maps, and a miscellaneous collection of foreign maps. Call the Storage Facility at 215-573-5562 weekdays to arrange a visit. Maps of some urban locations are available at the Fine Arts Library. Use Franklin to check holdings.

Mathematics-Physics-Astronomy Library | www.library.upenn.edu/scitech

Philadelphia, PA 19104-6317
215-898-8173/fax: 215-573-2009

52,707 vols./580 current serials, holdings as of July 2007

The collection supports teaching and research in mathematics, physics, and astronomy, and is particularly strong in high-energy physics, astrophysics, topology, algebraic geometry, and Riemannian geometry. The Math-Physics-Astronomy Library also provides major electronic indexes and abstracts to the literature of mathematics and physics, including MathSciNet, INSPEC, Scopus, and the Science Citation Index. Many journals are available in fulltext electronic form.

Medicine see Biological Sciences, Dental Library, Nursing Resources, and Veterinary Medicine

Microforms: Penn's collections include substantial microfilm, microfiche, and microprint holdings. Though more material appears on the web everyday, a large percentage of research-level resources is still only available in microform. Each library housing microforms also provides reader-printers for easy hard-copy output, and the readers in the Van Pelt Library will allow you to scan microforms to PDF. See the web page on Microforms Sets at www.library.upenn.edu/collections/microforms/. In most cases individual titles included in microform sets are not listed in Franklin.

Middle East Studies | <http://www.library.upenn.edu/collections/middleeast>: The strength of the collection lies in Islamic law, the medieval and modern history of the Arab world and

Iran, and the classical and modern literatures of the Arabic-speaking world, Iran, and, to a lesser degree, Turkey. The collection consists of materials in both Middle Eastern and Western languages. Holdings include a large number of rare nineteenth- and early twentieth-century works by noted European Orientalists and numerous texts in Arabic, Persian, and Ottoman Turkish printed during the same period. Basic reference works and core texts are housed in the Middle East Seminar Room on the 5th floor of the [Van Pelt Library](#).

Dick Griscom, 215-898-3450
griscom@pobox.upenn.edu

The Ormandy Music and Media Center in Van Pelt-Dietrich

The libraries' membership in the Center for Research Libraries makes available one of the nation's largest historical newspaper collections. The Center offers members generous loan periods and provides long runs of periodicals without loan limits for scholars who need extended access to original sources.

NURSING RESOURCES
Sherry Morgan, 215-898-0855
semorgan@pobox.upenn.edu

The Music Library also contains two important resource centers:

The Marian Anderson Music Study Center provides a quiet study facility for patrons, and contains the core of the Library's reference collection, current issues of periodicals, and a conference room for teaching.

The Eugene Ormandy Music and Media Center offers compact disc collections of classical music, jazz, popular music, and world music. The Library's collection of music-related videos is also housed here. The Center is equipped with CD and DVD players as well as turntables, cassette players, and videocassette decks. Five group viewing rooms are available to watch video recordings in all formats, and in fall 2008, a small studio suitable for recording voice narrations and interviews will be opened in the center.

New Bolton Center see Veterinary Medicine

New Materials: You can see what the libraries have received recently in your area of interest by linking to NewBooksPlus! from the search box on our entry page. Books, journals, databases, and other materials are organized by date of receipt, library location, material type (e.g., videos), or any combination of the above. Subscribe to an RSS feed to receive periodic updates as we acquire new titles.

Newspapers: The libraries subscribe to Library PressDisplay, a database of 225 newspapers from fifty-five countries, Library PressDisplay features searchable page images of each newspaper and an archive dating back sixty days. A core selection of newspapers is received in print in the Van Pelt Library, as well as in school and departmental libraries in their subject areas. The libraries collect a number of historically important newspapers in microfilm and digital form, including the digitized backfiles of The New York Times; The Wall Street Journal; The Los Angeles Times; and Early American Newspapers, 1690-1876. For news sources from Al-Jazeera to Zona Latina, search for news sources at www.library.upenn.edu.

Numeric Data see Quantitative Information Resources

Nursing Resources: The libraries support the entire spectrum of information relevant to nursing. Collections within the Biomedical and Van Pelt Libraries include journals and textbooks on nursing practice, research, and education. The CINAHL/Nursing and MEDLINE databases and relevant databases in the social sciences are among the many electronic resources that facilitate the work of students and faculty and inform the decision-making of nurses in the patient care centers of the University of Pennsylvania Health Systems.

Create project folders for classes and group assignments which allow you to build and manage online bibliographies collaboratively. More details on Penn Tags are available at <http://tags.library.upenn.edu>.

PennText: Provides links to full text articles from records in many citation and index databases. When articles are not available electronically, PennText provides links to information about print holdings in our collections.

Periodicals: Penn subscribes to more than 43,000 periodicals and other serials, including some 14,000 e-journals. If you do not find the periodical you need listed in Franklin, Penn's online catalog, check with a librarian. Document Delivery/Interlibrary Loan will try to get articles for you if the journals you need are not part of Penn's collections. Use the BorrowDirect+/ILL link on our entry page to make a request.

Photocopying: Self-service photocopy machines are available in all libraries. Use your PennCard or a PennCash card to copy at \$.08/page. Copies made with coins are \$.10/page. Faculty may charge copy cards to departmental accounts. For more information on departmental accounts, call the Business Office in the Van Pelt-Dietrich Library Center at 215-898-7567, or the Administrative Services Office of the Biomedical Library, at 215-898-4223. For more information, see <http://www.library.upenn.edu/facilities/photocopy>.

Physics see Mathematics-Physics-Astronomy Library

Printing: Workstations in computer labs and in other public clusters are connected to laser printers. Color laser printing is offered in Van Pelt, the Weigle Information Commons, the Fisher Fine Arts and Biomedical Libraries. The cost to print in black and white is \$.08 per page, and \$.50 per page for color. For more information about computer printing services see the web page at <http://www.library.upenn.edu/facilities/photocopy> or ask a staff member.

Proxy Service for Off-Campus Access to E-resources: Penn students, staff, and faculty connecting to databases, e-journals or other proprietary resources made available by the libraries will need to connect through the library's Proxy Service. For more information, check the web page at <http://www.library.upenn.edu/proxy>.

Quantitative Information Resources: The libraries receive large amounts of numeric data in a variety of forms. Through our memberships in three agencies, the Inter-University Consortium for Political and Social Research, the Roper Center for Public Opinion Research, and the Sociometrics Social Science Electronic Data Library, we provide direct download and mediated access to datasets worldwide in political science, economics, population studies, social and health issues, and communication. We receive large amounts of numeric data on CD-ROM and DVD from the U.S. Census Bureau and other government agencies, and from financial sources such as DataStream. Via the library web site we provide access to major online databases with numeric files, including STAT-USA, SourceOECD, and the UN Common Database. For more about data resources, consult the Research and Instructional Services staff in Van Pelt, at 215-898-7556.

248,311 vols./10,000 l. ft. of MSS., holdings as of July 2007/check Franklin, also the card catalogs in Van Pelt and in the Rare Book & Manuscript Library.

This Library holds rare and unique printed books and extensive manuscript collections. Printed book holdings include items from the fifteenth century to the present, and are especially strong in philosophy, history, literature, and science. Codex manuscripts date from as early as 1000 C.E. Modern manuscript collections of the papers of writers, performers, artists, and scholars—among them Theodore Dreiser, Lewis Mumford, Marian

ROSENGARTEN RESERVE
Andrea Loigman, 215-898-0701
 loigman@pobox.upenn.edu

Anderson, and Alma Mahler Werfel—offer many research opportunities. Major special collections include: the Edgar Fahs Smith Memorial Library in the History of Chemistry; the Horace Howard Furness Memorial Library of Shakespeare and Renaissance Literature; and the Henry Charles Lea Library of the Inquisition and Church History. The Library also produces the SCETI (Schoenberg Center for Electronic Text and Image) site. Staff are available to highlight older printed books and manuscripts in classroom presentations.

Recalls: You can recall a book charged out to another patron by using the Place Request tab in Franklin. The person who has the book is required to return it within 10 days, and we will notify you when it is available for pickup at the library of your choice. You may recall books that you need regardless of due dates. BorrowDirect and E-ZBorrow are usually faster alternatives to recall. Check for the BorrowDirect+ button at the top of each Franklin screen.

Reference Manager see Bibliographic Management Tools

Reference Service see Help Using the Libraries

Refworks see Bibliographic Management Tools

Renewals: You can renew books online, any time and from anywhere by using the My Account tab within Franklin or by using the Library Account login box at www.library.upenn.edu. After logging in, just mark the titles you wish to renew.

Reserves: Faculty can place books, journal articles, and other materials that are recommended reading for a course “on reserve.” The libraries will also scan articles for electronic reserve. These scanned files can be linked from the library reserve catalog or a course web site created in Blackboard or some other courseware application. Print reserve materials generally are housed in separate areas and circulate for a few hours or overnight. Use the Course Reserve search type in Franklin, Penn’s online catalog, to find out what is on reserve. Franklin lets you search by faculty name, by course name and number, or by department. Reserve readings for undergraduate and graduate courses in the social sciences and humanities are housed in Rosengarten Reserve in the Goldstein Undergraduate Study Center, located on the ground floor of the Van Pelt-Dietrich Library Center. In addition, each library has a reserve section.

Rosengarten Reserve see Reserves and Undergraduate Study Center

Safety and Security: Carry your PennCard at all times. Guard your valuables; do not leave them unattended. Notify staff immediately if you see suspicious or threatening

behavior. Red campus emergency telephones are located in the Van Pelt-Dietrich Library Center and the Biomedical Library.

Scanners: Scanning stations, along with desktop publishing software, are available in the Fisher Fine Arts and Biomedical Libraries, the Van Pelt Moelis Electronic Research Center, the Rosengarten computer lab, and the Weigle Information Commons. With the exception of Rosengarten, these locations also offer color laser printing.

SCETI (Schoenberg Center for Electronic Text & Image) | <http://sceti.library.upenn.edu>

Part of the Annenberg Rare Book & Manuscript Library, the SCETI web site publishes virtual facsimiles from Penn's special collections. These include printed books, manuscripts, photographs, maps, broadsides, ephemera, and recorded sound. The SCETI site also serves as a gateway to other virtual resources created from the library collections, such as exhibitions, special databases and indexes, finding aids to manuscript collections, and virtual collections maintained elsewhere in the Penn library system.

ScholarlyCommons@Penn see Scholarly Communication

Scholarly Communication: Penn Libraries offer a variety of services for faculty to promote their work, including *ScholarlyCommons*, an archive of scholarly journal articles; *SelectedWorks*, a tool for creating personal research pages; workshops on copyright, and other publishing services. More information is available at <http://www.library.upenn.edu/scholcomm>.

Science and Engineering Resources see Chemistry, Engineering, Math-Physics-Astronomy and Van Pelt Libraries, and on the web at <http://www.library.upenn.edu/scitech>

SelectedWorks see Scholarly Communication

Slides and Photograph Collection see Fine Arts Library and Image Collections

Social Policy and Practice: Social work materials are housed primarily in Van Pelt Library. The collection is historically strong in social welfare history, clinical social work, and American social issues. Current strengths include youth and social policy, mental health, social work practice, and social welfare. The strong electronic and print journal collection includes the core journals and most other journals abstracted in Social Services Abstracts and Social Work Abstracts, the primary databases for the discipline. Because of its interdisciplinary nature, social work and social welfare research also depend on the collections in the intersecting fields of criminology, gerontology, and health.

At SCETI, read Shakespeare in context, hear Marian Anderson sing, roam Theodore Dreiser's estate, and view scores of manuscripts and rare books without ever leaving home.

SOUTH ASIA RESOURCES

David Nelson, 215-898-7460
nelsond@pobox.upenn.edu.

Social Sciences Collections: Nearly all the Penn Libraries house materials in the behavioral and social sciences. As the principal collection, Van Pelt Library covers sociology, linguistics, psychology, political science, economic theory, criminology, ethnic studies, geography, regional studies, urban studies, gender and women's studies, and social, cultural, political, and historical aspects of law, medicine, and science. Van Pelt contains education and social work collections, and the core government publications collection. Departmental libraries collect cooperatively with Van Pelt in individual fields. Examples include: Lippincott (business and related areas); Museum (anthropology and archaeology); Fine Arts (city and regional planning); and Annenberg (communication).

Major periodicals in all fields are represented in current and historical runs, with fulltext versions of many titles provided through JSTOR, PsycARTICLES, and other e-journal projects. Bibliographic information for articles and other materials is available through networked databases, such as ISI Web of Science and International Bibliography of the Social Sciences. The libraries also provide quantitative information resources and geographic information systems (GIS) data.

Special Collections see Rare Book and Manuscript Library

South Asian Studies | <http://www.library.upenn.edu/collections/sasia>: Penn has acquired valuable research and teaching materials on South Asia, in both Western and South Asian languages, since the early 1800s and now has one of the premier South Asia collections in the United States. Its goal is to support scholarship on South Asia from antiquity to the present day. The collection, housed primarily in Van Pelt, the Fisher Fine Arts Library, and the Museum Library, focuses on the humanities and the social sciences. Particular strengths include anthropology, archaeology, art history, classical Indology, linguistics, literature, religion, philosophy and political science. The South Asia Reading Room, on the fifth floor of the Van Pelt Library, houses reference works and the South Asia Art Archive—over 110,000 photographs and more than 10,000 color slides of Indic art and architecture. Penn also collects sound and video recordings from Bangladesh, Sri Lanka, Pakistan, Nepal, and India.

Study Facilities: Lounges, group study rooms, quiet study areas, and carrels are located in the Van Pelt-Dietrich Library Center and in other libraries on campus. Students can reserve group study rooms on the 3rd and 4th floors of Van Pelt (reserve at the Information Desk), in the Goldstein Undergraduate Study Center and in the Lippincott Library of the Wharton School. The Goldstein Undergraduate Study Center and the Rosengarten Computer Lab on the ground floor of Van Pelt are open for use 24 hours a day Sunday through Thursday, until midnight Friday, and until 2 a.m. Saturday, during the fall and spring semesters. The David B. Weigle Information Commons is the Penn

Libraries' most technologically advanced location for collaborative student work. See the article on the Weigle facility for details.

Suggestions: We welcome your comments and questions about our services and collections. Contact any of the library staff listed in this guide, chat with us in real time from refchat.library.upenn.edu, or send us [email](mailto:email@library.pobox.upenn.edu) at library@pobox.upenn.edu.

Table of Contents/Current Awareness Services and PennAlerts: With support from their schools, both the Lippincott Library of the Wharton School (see [Business Resources](#)) and the [Engineering Library](#) offer faculty an alert service that helps them keep up with journal literature in their fields. Wharton faculty may contact [Cynthia Cronin-Kardon](#) at Lippincott (215-898-5553 | croninkc@wharton.upenn.edu); Engineering faculty should contact [Doug McGee](#) at the Engineering Library (215-898-8170 | mcgee@seas.upenn.edu) for more information. Faculty are also eligible to use the electronic table of contents service, [PennAlerts](#). For more on this specialized resource see the PennAlerts article on page 24 or type PennAlerts in the search box at www.library.upenn.edu.

Training see Instructional Services and Research Skills

Goldstein Undergraduate Study Center: Open to all Penn students and library visitors, the Goldstein Undergraduate Study Center houses the Rosengarten Reserve Room, the main reserve collection at Penn, and is located on the ground floor of the Van Pelt-Dietrich Library Center. Together with the Rosengarten [Computer Lab](#), this study area is open 24 hours a day to current Penn students, faculty, and staff, Sunday through Thursday, until midnight Friday, and until 2 a.m. Saturday during the fall and spring semesters. For coffee or a snack, visit Mark's Café, also located on the ground floor of Van Pelt.

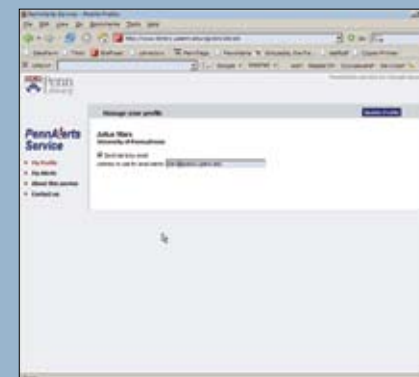

Undergraduate Use of the Libraries:

- Undergraduates may borrow an unlimited number of books and up to four videos at one time.
- Books may be borrowed for 28 days from all libraries, except Biddle and Annenberg. Videos circulate for seven days.
- You can renew your books or recall circulating books online.
- Your online patron record identifies the books you have charged, lets you renew them online, and lists your recall or rush processing requests that are pending and/or filled.
- The Goldstein [Undergraduate Study Center](#) provides group study rooms, a computer lab, video viewing facilities, an assistive technologies room, and an all-night study space on the ground floor of the Van Pelt-Dietrich Library Center.

Individual and Group Study Spaces on five floors in Van Pelt-Dietrich

PennAlerts for up-to-date notification of articles appearing in thousands of e-journals

The libraries offer a variety of individual and group study space, from quiet rooms on the upper floors of Van Pelt to the high-tech facilities of the Weigle Information Commons. When you need a break, visit Mark's Café just steps away from the Goldstein Undergraduate Study Center.

2,436,000 vols./13,700 current serials /2,000,000 microforms, holdings as of July 2007
The Van Pelt-Dietrich Library Center is home to the central library administrative offices, the library Information Processing Center, the Weigle Information Commons, the Goldstein Electronic Classroom, the Class of '55 Conference Room, exhibition galleries, computer labs, and four separate libraries: the Annenberg Rare Book & Manuscript Library, the Lippincott Library of the Wharton School, the Music Library, and the Van Pelt Library. Van Pelt Library holds the humanities and social sciences collections, area studies collections (African Studies, East Asian Studies, Latin American Studies, Middle East Studies, and South Asian Studies), and seminar room collections of non-circulating core titles for Africana Studies, Classics, Judaica/Ancient Near East Studies, and Medieval Studies. General science and earth and environmental science holdings are also found in Van Pelt, as are the general reference collection, video collection, the Current Periodicals and Microtext section, and most of the Library's government documents. The building, extensively renovated, offers a variety of study facilities and lounges, with laptop and wireless connections to the Internet. There are also video viewing stations and over 200 networked computers for use by the Penn community.

33,777 vols./376 current serials, holdings as of July 2007
The Veterinary School Libraries support teaching, research, and patient care for all phases of veterinary medicine and surgery. The Atwood Library collection emphasizes small animals, while the Jean Austin duPont Library collection emphasizes large animals and aquaculture. The collections also include works on exotic animals and birds, animal behavior, parasitology, human medicine and the basic sciences. Online access is available for the major databases in the field. Librarians offer individualized consultations and database training sessions for faculty, staff, and students at both the New Bolton Center and on Penn's campus. The two libraries share resources and electronically scan and send journal articles from one site to the other upon request.

VITALE DIGITAL MEDIA LAB
David Toccafondi, 215-746-2661
 davidtoc@pobox.upenn.edu

Visitors, Alumni, and Guests of Faculty, Staff, and Students:

- Visitors who are not affiliated with Penn may access the libraries on weekdays and will be required to show a valid photo ID before entering. We recommend you call ahead (215-898-7556) to verify admittance policies and hours.
- We welcome alumni to return to the libraries for research help. For weekend and holiday access, we ask alumni to present Penn Alumni Cards before entering. We also invite alumni to apply for courtesy borrowing privileges.
- Parents, spouses, and children of Penn students, as well as guests of Penn faculty and staff, are always welcome. Arrange in advance for guest access on weekends and holidays to the Van Pelt-Dietrich Library Center, and to several other libraries. Call the Van Pelt Information Desk at 215-898-7555 for additional details.

Vitale Digital Media Lab see Weigle Information Commons

David B. Weigle Information Commons | <http://wic.library.upenn.edu>: Students use the Commons for collaboration, group discussion, academic assistance and exploration of new media and advanced technologies. Our program partners—CWIC, Weingarten Learning Resources Center, and the Writing Center—provide walk-in assistance and workshops in the Commons for undergraduates on public speaking, study strategies and writing. Librarians assist students with evaluating research sources and using online resources.

The Commons houses self-service video recording rooms, data diner booths, group study rooms and flexible meeting spaces that can be reserved online. The Class of '68 Seminar Room is a state-of-the-art teaching facility with laptops, podcasting facility, videoconferencing, and personal response systems. The Vitale Digital Media Lab supports audio and video editing, poster creation, podcasting, and computer animation. The lab's knowledgeable staff provides friendly walk-in expertise and training on a variety of hardware and software topics pertaining to media creation. Vitale also lends video cameras and audio recorders to individual students, faculty, and staff working on media projects. All computers in the Commons support Web, audio, and image creation activities, as well as discipline-specific software.

Wireless Network Access: If your laptop computer is equipped with a wireless card, you can use it to access the Internet in many areas of Van Pelt-Dietrich, as well as the Biddle, Biomedical, Dental, Engineering, Fine Arts, and Museum Libraries.

WorldCat see Catalogs

www.library.upenn.edu. The Library Web: The library web site is your gateway to information in electronic, print, and other non-digital forms. Use it to access library catalogs, e-books, e-journals, digitized image collections, databases and article indexes, and selected Internet sites. The library web can help you obtain library services, such as book renewal and research help. For more information about connecting to library web-based resources see the Proxy Service article on page 26. The Penn Portal features a library tab which provides direct access to Franklin, electronic resources, videos, and other resources, and it places lots of ready-reference information at your fingertips.

Yarnall Collection: The Yarnall Library of Theology has been on deposit at the University of Pennsylvania Libraries since 1974. Located on the fourth floor of the Van Pelt Library, the collection supports the study of Anglicanism, including its history, liturgy, and theology, and is especially strong in Anglican and Roman Catholic canon law.

ZZZZZ... Those all-nighters taking their toll? Mark's Café, in Van Pelt, is the place to go for a jolt of caffeine and a power snack. Sit (or nap) inside or outdoors, watch the news on CNN, and bring your laptop. It's wireless! The café is open until midnight most nights during fall and spring semesters.

Access library catalogs, e-books, e-journals, image collections, and databases and article indexes on The Library Web at www.library.upenn.edu.
